

# The Wolf Pack Whitepaper

Packcoin.io

# 1. Introduction

The Wolf Pack (\$PACK) is a token created to make fun of other meme-coins promoting get rich quick schemes or shallow value adds that never get delivered. As a fully functioning token, we've built in features to highlight how silly other tokens structures are, and with transparency and skill we plan to highlight just how easy and fun this space should be. As a token, \$PACK is a decentralised platform designed to bring the benefits of reflection mechanics to the people of the world. \$PACK award holders in Binance Pegged (BUSD) at an earning rate of 10% with the only additional taxes key to supporting the ongoing community.

\$PACK are intended to be held by the purchaser as a joke. It does nothing, technically, but you can reap the rewards in pegged BUSD called 'reflections'. All price actions (buy and or sell) result in the same rewards.

## 2. Comment

\$PACK rewards holders with BUSD reflections. The wallet is automatically transferred to your \$PACK wallet every 60 minutes.

\$PACK has a total supply of 1,000,000,000,000,000 coins of which 50% will be burned before public launch.

With every transaction conducted 2% are automatically transferred to the PancakeSwap liquidity pool. \$PACK also maintains a buy-back reserve from where the tokens are converted into BNB and securely locked and stored in the \$PACK contract. The Anti-Whale system in place also discourages whales by limiting the sale amount to a maximum of 0.125% of the total supply.

The contract is coded so that the BNB in the reserves are unable to be withdrawn and can only be used to buy back \$PACK coins from the open market.

# 3. \$PACK Values

## **We are a meme**

We are

Light hearted, witty, and cheeky.

Self aware of who and what we are

We are not

Taking ourselves too seriously

To our community

A transparent and honest team

## **We are Committed**

We are

Dedicated to The Wolf Pack and providing long-term support

We are not

Looking to make a quick buck

To our community

In it with them for the long haul

## **We are a Pack**

We are

Inclusive to everyone

Standing up for and supporting our own

Showing love and acceptance through insults

We are not

Mean spirited

Punching Down

To our community

A place they are welcome and accepted

# Telegram

\$PACK telegram page will be online 24/7 and is there to help all holders with the chance for discussion and or any issues that may occur. \$PACK admin or owners on the TELEGRAM or any other social media page will never Direct Message (DM) you for any purpose whatsoever. If you ever come across suspicious activity, please advise admin in our Telegram group so they can be deleted from all of our social activity accounts. \$PACK aim to answer as many questions as possible in our social media platforms. We feel that an ongoing presence in social media helps to provide holders with any updates required.

\$PACK aim to involve people from all over the world. It is our aim to offer specialised telegram channels for our foreign community members.

# 4. Token Features

## BUSD REFLECTIONS:

All holders of \$PACK will receive the automatic BUSD reflection rewards in your wallet. 10% of every buy and sell transaction is redistributed accordingly. Alternatively, you can claim your rewards manually in our dApp dashboard after completion.

## FOR TRUST WALLET:

Click on the top right hand for 'Options' and search for BUSD.  
Enable BINANCE-PEG BUSD (BEP20)

## FOR METAMASK WALLET:

Click on Assets, scroll to the bottom and click "Import Tokens"  
Copy and paste the BUSD Token Address:  
0xe9e7cea3dedca5984780bafc599bd69add087d56

## LIQUIDITY POOL:

2% of every single buy and sell transactions are converted into liquidity for Pancakeswap. Pancake swap fixes the low liquidity problems of DEX's through the liquidity Pool mechanism. The bigger the liquidity pool will ensure more stability to your \$PACK

## PARTY WALLET (PARTY POT):

2% of every buy and sell transaction are automatically added to the Party Pot. The tokens collected from the fees are then converted into BNB and securely locked for The Wolf Pack parties and partnerships. VIP tickets to festivals? Premium access for Wolf Pack NFT holders? Flights, accommodation & spending money? Life is to be lived.

# 5. Token Allocation

Total Supply 1,000,000,000,000,000 \$PACK

Website redesign to update to current project status

BNB giveaways to be won

## **Q4 2022:**

New Roadmap for Q4 2022 and beyond is launched.

# 4. \$PACK Roadmap

## **Locked Liquidity**

Initial liquidity will be locked in for a minimum of 365 days to provide holders with peace of mind that the token can always be traded.

A trusted third party, PINKSALE, will act as an intermediary to ensure that all BNB committed is locked in a secure locker for the entire time period.

## **Contract Audit and KYC**

Further to our efforts of transparency and security, a full audit has been completed with TECH RATE and is available for viewing on The Wolf Pack website.

The AUDIT confirms there are no High, Medium or Low severity issues within the contract.

KYC verification has been purchased and will be available before, or shortly after launch.

The token contract is verified and available for viewing on [bscscan](#).
